

EMLE 101

Emerging Leaders

Invest in your emerging leaders and develop them into future leaders with well-rounded management skills.

The Emerging Leaders program provides aspiring leaders with invaluable experience and understanding of leadership and business operations. The course develops participants' knowledge and leadership skills across a number of core learning areas.

Seminar Overview

- This program is facilitated over 12 short sessions and can be completed in 6-24 months, depending on the time constraints of participants.
- The seminar is delivered in a flexible learning environment, that includes face to face delivery, group projects, workplace projects, and online support material.
- Participants develop relationships with other aspiring leaders and put their new knowledge to practice.
- Develop core leadership and management skills.
- Identify the value proposition of a business.
- Understand key components of financial management, including interpretation and analysis of financial performance.
- Explore budget development, forecasting, and key performance indicators.
- Learn how to lead yourself and others.
- Develop high-performing teams.
- Understand how to empower innovation within your team.
- Learn to navigate risk, ethics, and politics.
- Actioning and managing change.
- Implement new initiatives.
- Communicating for Results.

Pricing is inclusive of all 12 seminars and required materials. Tailored quotes are available on request for organisations wanting to conduct the training in-house.
