

# RESI101

## Resident and Accommodation Payment Fundamentals

### Managing Accommodation Payments in Residential Aged Care is complex. We simplify it.

Understanding how the accommodation payments are charged can be even more difficult. The RESI101 program simplifies the complexities of accommodation payment rules and provides the fundamentals to ensure the prudential compliance requirements are adhered to when managing accommodation payments.

#### Seminar Overview

- How to determine if a resident is supported, assisted, or non-supported, and what tools are available
- What is the means tested care fee and how is it calculated?
- The means tested amount (MTA). How it is calculated, what it determines, how it impacts means tested care fees
- Setting accommodation pricing and analysing competitor pricing
- What fees are associated with entering an aged care facility and how are they charged?
- The difference between a RAD, DAP, RAC, and DAC
- Understanding accommodation supplements and means tested accommodation supplements
- What should you be reconciling on the monthly Medicare Payment statement?
- Billing respite residents and associated fees
- What is the difference between extra service fees and additional service charges?
- Real life examples of combination RAD/DAP payments and the calculation of them including drawdowns
- What happens when a resident's DAC changes?
- Refunding a RAD to a resident facing hardship
- RAD refund preparation
- Using the MPIR and BIR
- Accommodation Bond Overview
