

CONSULTING SOLUTIONS

Governance & Strategy

Sound governance and a clear strategic direction are imperative to the success of your organisation.

Governance and strategy can easily get lost in the busy day to day of operating a business. Engaging CareCFO to work with your Board and Executive team allows you to focus on your core operations and leverage our knowledge and experience.

No two organisations are the same and we take the time to get to know our clients and understand their story, their history, and their vision.

Strategic Planning

Strategy is the heart of your organisation. Every decision made should be made in conjunction with the organisations Strategic Plan. We offer a variety of tailored Strategic Planning methodologies, designed to match your organisation's size and strategic direction.

Governance Systems

Do you have a robust governance system that provides clear delineation over compliance, risk, legal, finance and audit matters? If you need a governance system, or if your current one isn't working effectively, we can work with you to develop a strong governance framework.

Board Education

Our team have developed comprehensive programs for Aged Care and Disability Boards and Executive Teams that explore Corporate Governance, Sector trends and future directions, Risk Management, Innovation, Financial Drivers, Human Resources and Marketing. We can customise the education programs based on the skills or knowledge gaps in your Board.

Governance & Strategy

Operational Reviews

Engaging us to review a certain department, or even the whole organisation, can provide valuable insight to assist in making better business decisions. Our consultants analyse processes, policies, and procedures to determine the effectiveness and efficiency of current practices as well as benchmarking results against similar organisations to provide greater context.

Business System Reviews

If you have identified the need for a new software system but lack the time to adequately scope, select and implement a new business system, CareCFO can help. We have worked with many organisations to review finance systems, payroll systems, rostering systems, care systems, and other key business software systems.

Business Benchmarking

Understanding how your organisation compares to industry standards across key KPIs is integral to identify opportunities for financial and operational improvement. CareCFO uses benchmarked data from varying sources and can develop a report to demonstrate where your organisation falls above or below industry benchmarks.

Quality Framework

Whether you are starting a new business, venturing into a new sector, or just have an outdated quality framework, we can review, develop and implement a best practice quality framework that complies with accreditation standards.

Process Enhancement Reviews

The drive for efficiency through innovation and technology should be coupled with efficient resource deployment and process enhancement. Let us review your processes and make recommendations for improvements to help you gain operational efficiencies. Whether its your admin team, HR functions, or operational, we can work with you to improve efficiencies.

If your project isn't on the list, call us to see if our consultants can help you.
